PLUGINS

***WHAT ARE THEY**

***KEEPING YOUR PLUGINS UP TO DATE**

Plugins can extend WordPress to do almost anything you can imagine. In the directory on <http://wordpress.org/plugins/> you can find, download, rate, and comment on all the best plugins the WordPress community has to offer.

Keeping Your Plugins Up To Date

The screenshot shows the WordPress dashboard's Plugins page. The top navigation bar includes 'Support', 'Jan Thompson', and '4' notifications. A red banner indicates 'Coming Soon Mode Active'. The left sidebar shows the 'Plugins' menu with a '4' notification badge. The main content area displays a table of installed plugins. Two plugins, 'Better WP Security' and 'Google Analytics Dashboard for WP', have yellow background highlights indicating updates are available. Each highlight contains a message: 'There is a new version of Better WP Security available. View version 3.5.2 details or update now.' and 'There is a new version of Google Analytics Dashboard for WP available. View version 4.0.2 details or update now.'.

Plugin	Description

<input type="checkbox"/> NextScripts: Social Networks Auto-Poster	This plugin automatically publishes posts from your blog to multiple accounts on Facebook, Twitter, and Google+ profiles and/or pages.

When you see a number displayed next to “Plugins” it’s time for some updates.

To update, select Plugins. The Plugins that have an update ready is marked yellow. Now simply select “update now”, that’s it!

ATTENTION

Before updating Plugins or WordPress, make sure you have backed up!

Sometimes manual settings can go lost after an update, if this should happen it's easy to recover the backup and make a note of any settings prior to the update.

There are a number of backup Plugins available on <http://wordpress.org/plugins/>
